My dear General,

This is to thank you for your kind and generous hospitality shown to me when I was there at your place recently. The free and frank discussions we had that evening was really informative. Your booklet-- LET US WAKE UP-- showed your views on various topics. As desired I have left this with Minnie to be passed on to you. I wish you could have it translated into Canarese for the benefit of the rural population in your place. In fact it should be brought out in the major languages and distributed. I am passing on your views regarding PROHIBITION to the special committee in Tamilnad which is constituted following the killer drink incidents recently in Madras city. I fully agree what you have said on the subject.

When you visit Madras, please drop me a line. It will be a pleasure to meet you.

Thanking you once again and with warm regards.

Yours Sincerely,

C. Inder Mohan
